AT THE HUB & HEART OF THE CITY.

Occupying five blocks along McKinney Street, the new Houston Center engages visitors and users by activating both sides of the streetscape.

At the heart of the project is a new central plaza, creating a sense of place.

Intuitively and visually connecting the building podium levels to the street, the vibrant central plaza features a digital water wall, flexible entertainment space, and an iconic monumental staircase to the landscaped terraces above.

» BROOKFIELD PROPERTIES

Working with the stellar design teams Gensler and Clark Condon, Brookfield Properties is making a significant capital investment that will raise the bar in the total tenant experience. Houston Center is now the modern and dynamic mixed-use office campus with the amenities to retain and attract top talent.

Brookfield Properties has a strong history of investing in our assets, as evidenced by our recent redevelopment of One Allen Center, which included a transformation of the lobby with a modern two-story glass facade; a re-clad, transparent sky bridge that connects One and Two Allen Center; and a complete re-envisioning of the exterior landscaping with a one-acre greenspace, named The Acre. Future plans include complete lobby renovations for Two and Three Allen Center as well as the transformation of the Doubletree Hotel.
